

**4-5 Skills Practice****Scatter Plots and Lines of Fit**

Determine whether each graph shows a *positive correlation*, a *negative correlation*, or *no correlation*. If there is a positive or negative correlation, describe its meaning in the situation.

5. **BASEBALL** The scatter plot shows the average price of a major-league baseball ticket from 1997 to 2006.

- Determine what relationship, if any, exists in the data. Explain.
- Use the points (1998, 13.60) and (2003, 19.00) to write the slope-intercept form of an equation for the line of fit shown in the scatter plot.
- Predict the price of a ticket in 2009.

- Draw a scatter plot and determine what relationship, if any, exists in the data.
- Draw a line of fit for the scatter plot.
- Write the slope-intercept form of an equation for the line of fit.
